

Statement of Qualifications

Summary of Project Controls Capabilities

PRIDE
Resource Partners

OVERVIEW

Pride's project controls team has experience in all aspects of project controls for programs and projects of varying size and complexity, including major capital programs and projects. Pride's team has:

- Helped clients develop dashboarding tools to better monitor contract health
- Successfully provided complete document management solutions—from requirements gathering, to development and implementation, to close-out—including over 40 enterprise document management (EDM) environments
- Processed over 55,000 invoices on behalf of our clients in a single year, with a value of approximately \$900 million
- Leveraged Primavera (P6) scheduling software to build and manage multiple project schedules, performing what-if schedule scenarios and advanced schedule analysis

Our management team brings extensive project and program management experience with a proven track record of successfully executing complex projects and programs. Pride uses the latest technology and industry knowledge as well as client specifications and requirements to ensure our services meet or exceed our clients' expectations.

Pride has been providing project controls services to our clients since the company was founded in 2015. Pride can help support your next project or program with a full array of project controls services.
